

Partner for Organizational Improvement Actions

Engineering • Certification • Training •
Academy • Quality • Supply Chain • Manufacturing

Fine tuning of Organization

Your organization is approved by authorities or an OEM? You plan to apply for new work packages including additional responsibility?

We can support you in both, closing findings during approval assessments and audits, as well as preparing your organization.

Permanent Staff Improvement

Your engineers are experts in their technical discipline? Your FTR and OTD KPIs are matching the target corridors? Our qualification and education activities ensure that the output of your company keeps a high level of quality and efficiency for future challenges in line with your strategy.

Consulting and Training from Engineering to Manufacturing

We are specialists in providing Training and Consultancy support to your immediate needs and long term targets.

Our experts have knowledge from different industries (Aerospace, Renewable Energy, Transportation) with major OEMs, SMEs as well as certification authorities.

We understand your challenges

With our years of experience we guarantee an easy, fast and cost-conscious handling of your training demands.

Fast and flexible consulting solutions onsite with your team organisation

Benefit from our on-site expert embedded in your organisation – bringing process and audit know how to prepare and accompany your technical and certification audits.

Our key for your success

Audit preparation:

- Supporting written answers
- Production of evidences
- Preparation auf Audit team
- Long term qualification of delegated signatories, technical authority and independent monitoring staff

Sustainable improvement:

- Proof of organizational compliance
- Actions closure support
